- Infrastructure Liaison
- OIP Incident Management Support Examples

US Army Corps of Engineers

USACE/FEMA Senior Leaders' Seminar

March 6-7, 2007
Lansdowne, VA

FEMA

OIP Support to NRP Structures

- National Operations Center (NOC)
  - OIP Watch Desk
- National Infrastructure Coordinating Center (NICC)
  - 24/7 CI/KR incident management and information sharing
- Domestic Readiness Group (DRG) Representative
- National Response Coordination Center (NRCC)
  - Infrastructure Coordinator permanently assigned to the NRCC
- JFO
  - Infrastructure Liaison directly supports the PFO and other senior officials in the JFO Coordination Group upon request
  - Infrastructure Liaison Support Team deploys to JFO operations and planning; State/local Emergency Operations Centers (EOC) as needed

US Army Corps of Engineers

USACE/FEMA Senior Leaders' Seminar

March 6-7, 2007
Lansdowne, VA

FEMA

NRP Critical Infrastructure/Key Resources Support Annex

- Describes policies, responsibilities, and a concept of operations for assessing, prioritizing, protecting, and restoring CI/KR during actual or potential domestic incidents
- Links the NIPP steady-state concept for CI/KR protection with the NRP approach to incident management
- Describes the CI/KR protection protocols for:
  - Infrastructure Liaison at the JFO
  - Private sector requests for assistance and information
  - Roles and responsibilities among SSAs and ESFs
  - Integrated interoperability for conducting:
    - Assessment of risk to CI/KR, including consequence, vulnerability, and threat
    - Determination of regional and national interdependencies, cascading effects, and impacts

USACE/FEMA Senior Leaders' Seminar

March 6-7, 2007
Lansdowne, VA

FEMA

Infrastructure Liaison

- Designated by the Assistant Secretary for Infrastructure Protection
- Advises the JFO Coordination Group and the PFO / FCO
- Provides knowledge and expertise to address:
  - Unique CI/KR considerations, including cross-sector impacts within the incident area
  - Cascading effects that can result in consequences beyond the immediate incident area
  - Interdependencies that require actions beyond those needed for infrastructure rebuilding within the incident area
